THE EXPERTS IN BELOW-THE-HOOK
LIFTING SOLUTIONS

DESIGNED, ENGINEERED, ASSEMBLED
AND TESTED IN THE USA

www.eltlift.com
A SOLUTION FOR EVERY APPLICATION

Custom Projects We’re Proud Of:
Our skilled engineers and fabricators believe that quality fabrication is both an art and a science. As an ISO 9001:2015 registered company (with design), our rigorous quality control procedures result in a final product that is built to exceed your expectations.

Custom built Four Point Lifter utilized to remove the Maid of the Mist from the Niagara River. The frame can be disassembled and stored when not in use.
ALL ITEMS CAN BE CUSTOMIZED TO MEET YOUR SPECIFIC REQUIREMENTS

**Fixed Crane Forks**

**Adjustable Crane Forks**

**Close Stacking C-Hook**

**Adjustable Hook Beam**

**Fixed Hook Beam**

**Twin Bail Beam**

**Adjustable Spreader Brackets**

**Custom Four Point Lifter**

**Custom Spreader Beam**

**Beam Options:**
- J-Hook, Low Head Room, Upper Chain Bridle Assembly, and Adjustable Bail (Powered or Manual)

**Popular Options:**
- Off Center Bail with Counter Balance
- Adjustable Bail and/or Adjustable Legs

**Standard Configurations:**

- **WLL:** 1,000-60,000 lbs
- **Load Lengths:** 30"-72"
- **Vertical Clearance:** 48"-72"

- **WLL:** 1,000-100,000 lbs
- **Coil Widths:** 24"-84"
- **Vertical Clearance:** 16"-44"

- **WLL:** 1,000-50,000 lbs
- **Load Lengths:** 30"-72"

- **WLL:** 1,000-60,000 lbs
- **Max Distance Between Hooks:** 20'

- **WLL:** 1,000-60,000 lbs
- **Max Distance Between Hooks:** 20'

- **WLL:** 10,000-200,000 lbs
- **Length:** 5'-40'

LARGER SIZES AND CAPACITIES CAN BE ENGINEERED TO MEET YOUR NEEDS

**Telescoping Sheet Lifter**

**STANDARD CONFIGURATIONS:**
- **WLL:** 6,000-40,000 lbs
- Worm gear assembly locks legs into position.

**Fork Lift Attachment Hook Cuffs**

**STANDARD CONFIGURATIONS:**
- **WLL:** 3,000 lbs
- **Fork Tube Widths:** 4.5", 5.5", or 7.5"

**Fork Lift Attachment Hook Beam**

**STANDARD CONFIGURATIONS:**
- **WLL:** 4,000-16,000 lbs
- **Fork Tubes:** 7.5" x 2.5"

**Extendable Fork Lift Boom**

**STANDARD CONFIGURATIONS:**
- **WLL:** 4,000 lbs
- **Reach:** 7' to 12' (in 1' increments)
- **Fork Tubes:** 2.5" x 7.5"

**Narrow Aisle Coil Lifter**

**STANDARD CONFIGURATIONS:**
- **WLL:** 20,000-80,000 lbs
- **Widths:** Up to 96"
- **Vertical Clearance:** Up to 36"

**Telescoping Coil Lifter**

**STANDARD CONFIGURATIONS:**
- **WLL:** 10,000-150,000 lbs
- **Coil Widths:** 20"-96"
- Proximity and load sensors available.

**Skip Pan**

**BUILT TO SUIT YOUR NEEDS:**
All trash hoppers are built to your needs. As an option, all seams can be fully welded to make each unit water tight. Many different sizes, designs and capacities can be furnished.

**Custom Automatic Fabric Roof Roll Lifter**
In addition to holding the fabric, the lifter also unspools it for the user!

**Custom Convector Plate Lifter**
Fully motorized, battery operated and remote controlled.
Mechanical version also available — Requires NO power!

*Designed, Built and Tested in the USA.*

Proof tested to exceed ANSI / ASME B30.20 standards.

Standard Equipment on Personnel Baskets

- Four leg bridle w/master link and four bolt-type shackles.
- Safety lanyard and tagline anchors.
- Quick attach/detach test weight assembly.
- In-Swing, self-closing, self-latching door.
- Grab rail around full interior perimeter.
- Full 4" kick plate.
- Full 42" height expanded metal to reduce wind affect.
- Slip resistant checkered plate floor.
- Fork lift tubes for easy movement.
- Drain holes in floor perimeter.
- Painted safety yellow.

Optional Equipment

- Solid bail, for restricted headroom.
- Rubber bumper around bottom and perimeter.
- Caster system to allow rolling while fully loaded.
- Expanded metal overhead protection – removable or fixed.
- Test weight is available as steel concrete form for you to fill with concrete on the jobsite. Provides a more economical solution.

Crane Baskets are designed to ASME BTH-1. Manufactured and tested in accordance with code of Federal Regulations 1926.1501 and ASME B30.23 and are completely OSHA compliant. Crane Baskets are designed, fabricated, tested and certified to exceed the above standards in order to meet the demands for a long life of rugged jobsite use.

STANDARD CONFIGURATIONS:
Dimensions: 4' x 4' x 8'
WLL: 1,000 lbs

STANDARD CONFIGURATIONS:
Dimensions: 4' x 8' x 8'
WLL: 1,500 lbs

STANDARD CONFIGURATIONS:
Dimensions: 4' x 4' x 4'
WLL: 1,000 lbs

STANDARD CONFIGURATIONS:
Dimensions: 4' 2" x 4' 2" x 4'
WLL: 2,000-4,000 lbs

STANDARD CONFIGURATIONS:
Dimensions: 2' x 2' x 2' w/3' upper arm
WLL: 1,000 lbs

STANDARD CONFIGURATIONS:
Dimensions: 10' x 10' x 8'
WLL: 5,000 lbs

Custom Close Stacking C-Hook
This custom built c-hook featured replaceable urethane bumpers and a reinforced lower leg.

This proprietary greaseless, low-friction telescoping coil lifter features a motorized unit with proximity and load sensors.
